

Why FCS IS **YOUR BEST** Ride Control **SOLUTION...**

- ✓ **Industry leading market coverage** - available for immediate shipment!
- ✓ **Premium OE quality** backed by extensive in-house testing and ISO/TS 16949 Certification from TUV SUD Management Service GmbH
- ✓ **FCS is a world leading prime manufacturer** of struts and shocks
- ✓ FCS is committed to **supporting your success** with consistent high order fill rates
- ✓ **Premium performance at a value price** - maximize sales opportunities and profitability
- ✓ **Buy for less, sell for less, make more \$**

PREMIUM PERFORMANCE
AT AN AFFORDABLE PRICE

COMPLETE STRUT ASSEMBLY

BARE STRUT & SHOCK ABSORBER

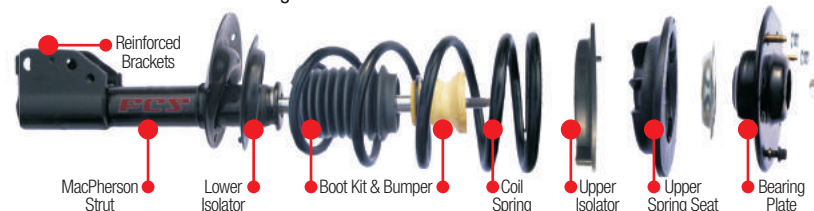

Every **FCS Automotive** product is engineered to meet O.E.M. quality using the latest state of the art manufacturing processes. All components and valving are specifically designed and calibrated to match form, fit and function for vehicle application and provide the OE ride and feel.

Each unit is compression & durability tested to ensure units meet OE specifications. All units include Freudenberg NOK seals, a highly-polished chrome rod finish, high performance shock oil and an OE style piston to ensure premium OE quality.

COMPLETE STRUT ASSEMBLIES INCLUDE:

- 1. MacPherson Strut:** With Freudenberg NOK seals, mirror-finished, hard-chrome piston rod, and premium Fuchs oil (insures a great seal, long-life and consistent dampening over wide range of temperatures).
- 2. Coil Spring:** Springs are checked for OE compression levels. All springs Electrostatic coating for optimal corrosion resistance.
- 3. Bearing Plate:** Endurance tested under extreme load to ensure optimal performance & long life.
- 4. Boot Kit & Bumper:** Bumper molded from urethane rubber for long dependable life. Absorbs harsh, damaging road impact and noise for quieter driving.
- 5. Upper Spring Seat:** Absorbs harsh, damaging road impact and noise for quieter driving.
- 6. Upper & Lower Isolators:** Ensures spring remains stable in all conditions.
- 7. Reinforced Brackets:** Designed to handle even the worst road conditions.

COMPLETE STRUT ASSEMBLY BENEFITS:

- No chance of missing parts
- **QUICKER** - No need to take apart existing strut assembly
- **SAFER** - No need to compress coil springs
- **EASIER** - No specialized tools needed
- Improves steering, handling and braking ability
- Minimize wear and tear on tires and other components

BARE STRUT & SHOCK ABSORBERS INCLUDE:

- 1. Freudenberg NOK Seals**
- 2. Mirror-Finished, Hard-Chrome OE Style Piston Rod**
- 3. Premium Fuchs Oil:** (insures a great seal, long-life and consistent dampening over wide range of temperatures).
- 4. Reinforced Brackets:** Designed to handle even the worst road conditions.

BARE STRUT & SHOCK ABSORBERS BENEFITS:

- Improves steering and handling
- Improves braking ability and safety
- Minimize wear and tear on tires and other components
- FCS ride control products feature Velocity Proportional Valving technology that provides proportional damping based on the speed of vehicle-to-road impact
