FCS Air Spring Warranty

February 1st 2026

FCS Air Springs are warrantied to be free of material defects and/or workmanship for a period of 2 years from invoice purchase date or 200,000 miles. All labor and incidental costs associated with replacing the defective spring are the responsibility of the consumer.

FCS offers a complete line of air springs with products available for a variety of applications. Since each individual air spring is closely examined and pressure tested at the factory, many warranty claims are found not to be defective, and failure typically occurs because of abuse caused by other problems associated with the suspension or a lack of sufficient air pressure.
