NEW PRODUCT ALERT!

Unlock convenience with the Electronic Tailgate Lift Supports! Say goodbye to struggles and heavy loads and hello to effortless access to your trunk space.

- Hands-free Operation: Open or close the tailgate with the press of a button or even through foot gesture activation in some models. This is especially useful when your hands are full.
- Anti-Pinch Functionality: Sensor to detect obstacles, preventing the tailgate from closing if something is in the way, thus reducing the risk of injury or damage.
- Controlled Motion: Provides smooth, consistent lifting and closing, eliminating the risk of the tailgate slamming shut and causing harm.
- Height Adjustment: Programmed to open at a specific height, which is useful for people varying heights or for garages with low ceilings.
